

WANTED!

1337 Software Unicorn

Our business partner is looking for a highly skilled **developer**, who is solution-oriented and to join its unicorn team. In this role, **you would share responsibility for devising, designing, developing and maintaining technical solutions** for different clients and within different projects, which means you will never get bored.

MUST HAVE

- **BSc**(Preferably MSc) in **IT related studies** such as: Computer Science / Informatics (aerospace engineering / artificial intelligence)
- **Minimum 3 years of work experience** as a software engineer at a corporate environment and / or consultancy;
- Knowledge of one or more: **Python, Java, C #, .NET**.
- Proficiency in English and Dutch, spoken and written
- Driving license

NICE TO HAVE

- Knowledge of Go, Rust and / or Haskell
- Project-based working experience (e.g. SCRUM, AGILE)

Technology stack: Angular, React (Native), Azure, JavaScript, SQL, HTML5, CSS, iOS, Android.

WHO IS OUR UNICORN?

- Has a great passion to help companies progress in the field of development and achieve their vision
- Seeks business / IT value for our clients at the interface
- Wants to develop broadly
- Enjoys diversity in projects and workplaces
- Aims to define, set up and lead projects (as senior) as a project leader or product owner
- You are proactive, Communicative, critical, ambitious and enjoying work in collaboration.
